WINES BY THE GLASS

OUR SUGGESTION: Order Several 3 oz. Half Glasses of Wine to Create Your Own WINE FLIGHT!

6 oz. is the industry standard for a standard glass of wine pour; a bottle of wine is 25.36 oz., so a bottle will yield four glasses.

All of our pours are measured to ensure you are receiving an accurate pour and we use large glassware for optimum taste.

SKIN-CONTACT 'ORANGE'

Orange wine is made from white grapes where the skins are not removed, as is typical in white wine production, & stay in contact with the juice for days or even months. White wine production normally involves crushing the grapes and quickly moving the juice off the skins into the fermentation vessel. The skins contain color pigment, phenols and tannins.
