WINES BY THE GLASS

OUR SUGGESTION: Order Several 3 oz. Half Glasses of Wine to Create Your Own WINE FLIGHT!
6 oz. is the industry standard for a standard glass of wine pour; a bottle of wine is 25.36 oz., so a bottle will yield four glasses.
All of our pours are measured to ensure you are receiving an accurate pour and we use large glassware for optimum taste.

SKIN-CONTACT (A.K.A. ORANGE / AMBER / SKIN-FERMENTED) WHITE

“Orange Wine” is made from white grapes where the grape skins stay in contact with the juice for days or even months during fermentation. The skins are removed during traditional white wine production. The skins contain color pigment, phenols and tannins, and this is an ancient style of white wine produced in a way a red wine would normally be made. There are no citrus oranges involved in orange wine production; it is made entirely from grapes!
